

Fwd: [Tapbots] Re: Keyboard Shortcuts in Tweetbot 6 for iOS?

From: David Blue davidblue@extratone.com

Howdy!

I've just downloaded Tweetbot 6 on my iPhone and noticed that not all of the hardware keyboard shortcuts found in the old app seem to work at this time. I'm not complaining, necessarily - I understand that I represent a miniscule percentage of users who actually use a hardware keyboard with iPhone - I was just wondering if you'd planned on adding them back, going forward.

Thank you so much for your time!

Which ones do you think you are missing, don't think that should've changed.

Tweetbot 6 Support Reply

Thanks for responding so promptly! Sorry I didn't do the same.

Shortcuts That Are **Not** Working

- **F Key** (To favorite.)
- **⌘ + R** (To reply to the selected Tweet.)

Shortcuts That **Are** Working

- **Shift + ⌘ + L** (Open links.)
- **Shift + ⌘ + U** (View user profile.)
- **Shift + ⌘ + R** (Refresh.)
- **⌘ + ↑** and **⌘ + ↓** (Scroll up and down)
- **Shift + ⌘ + [** and **Shift + ⌘ +]** (Cycle through accounts.)

(And more but unfortunately I'm out of time lol.)

I hope that helps. I also wanna say that I really appreciate you all continuing to work on TweetBot despite how bleak the Twitter client landscape must seem... And that I hope you'll try your hand at a client for Mastodon one day. ;)

Thanks again!
